FANO - EL JUESU - CUETO LA COTARIELLA

It is worth visiting Fano and enjoying the villages in the Libardón valley during our trip. Once there, the effort we've made to overcome the slope to El Alto del Cueto La Cotariella will reward us with beautiful views of the rural landscape.

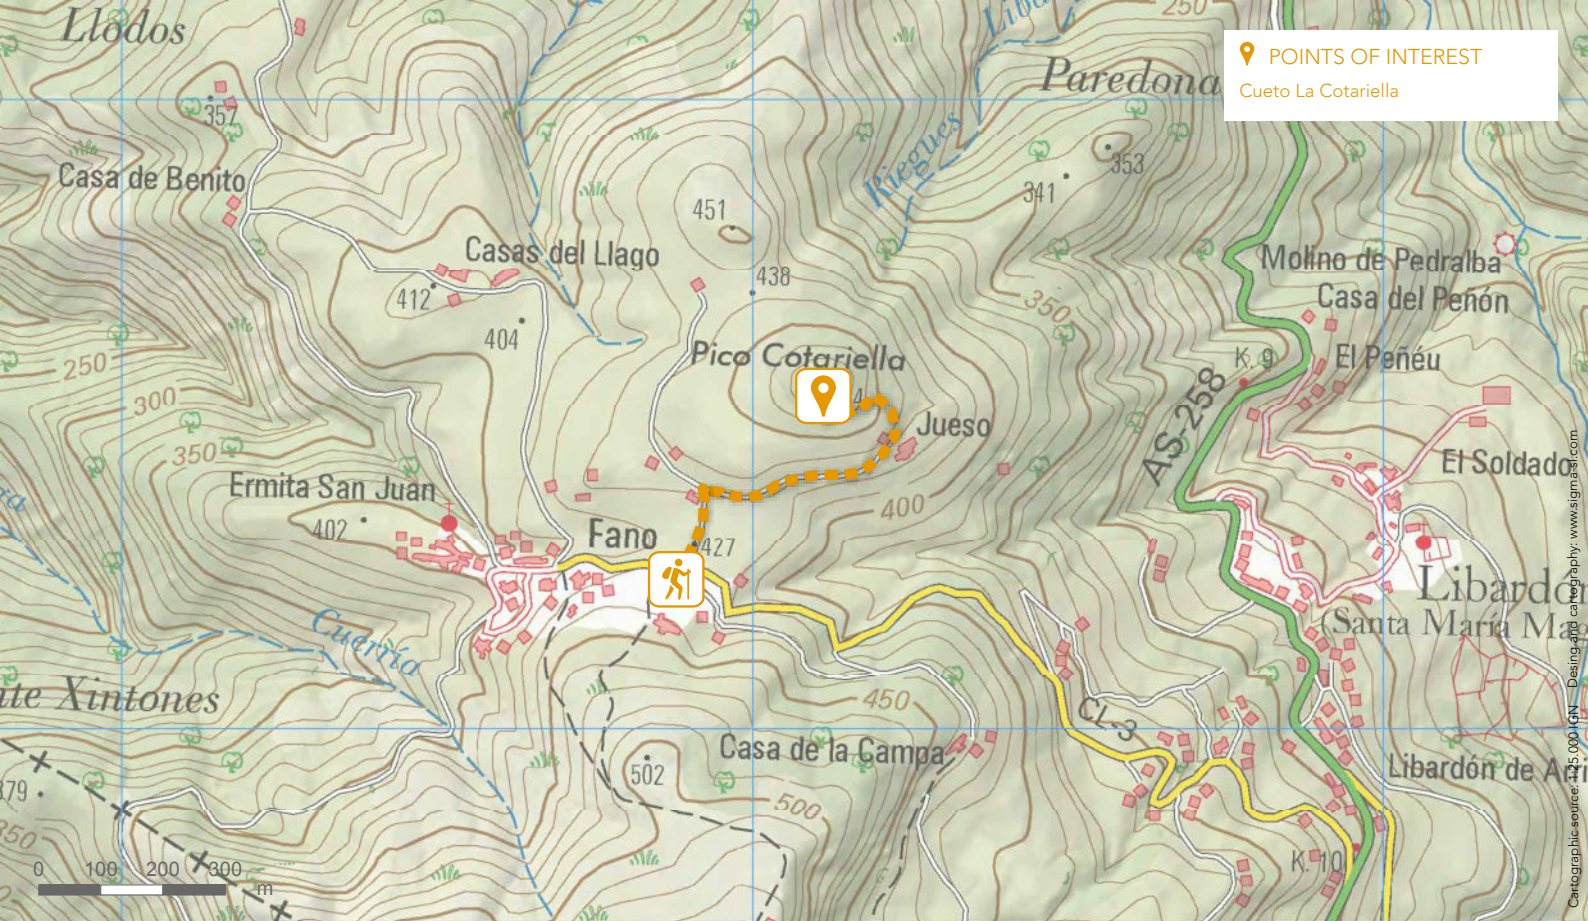

Route

We take the road from Colunga towards Infiesto. We will find a detour on the right, 10 km after surpassing the village of Libardón, which will lead us to the small town of **Fano**. Once there, next to the chapel of San Jan, a path on the right will take us to a group of houses known as "el Juesu".

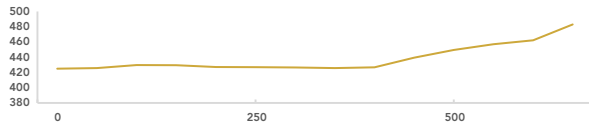

Here we can already see the trail ascending to the spot known as **Cueto La Cotariella** (484m high), which we can reach in 15 minutes. It is clearly identifiable by a cross placed at its highest point, from where we can enjoy an excellent view.
