HUERRES - LOS TENREROS - LA RAPOSERA- LA ISLA

The sea will be our eternal companion on this Sea Mysteries Route, where we will enjoy a nice walk on the cliffs over the coast of Colunga.

Recorrido

The route starts in the town of **Huerres**. Next to the town square we can find a panel indicating the starting point of the route and its characteristics. After walking a few metres amongst the houses, we will take a dirt track on our left which will lead us towards the coast for 500 metres.

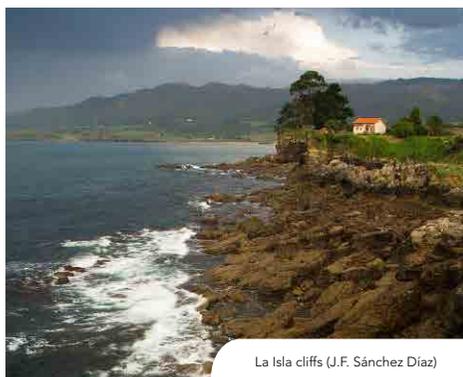

The path goes along the sea for approximately 2 km. During this time we will be able to observe the immensity of the sea and its closeness to the impressive **Sueve** mountain range and its 1161 meters of altitude. Depending on the time of the day, we may be able to see some fishermen working in their boats, which are based on the Lastres' port. We can actually distinguish the port once we reach the intermediate point of the route.

If we are not in a hurry it is really recommendable to stop for a break on the **benches** located along the route. This way we can scan the waves looking for dolphins and other cetacean species that swim in these waters. Maybe if we are lucky, and if we use our imagination, we can sight the floating figure of one of the mythical giant squids, or "kraken", that have been found stranded on the Asturian Jurassic Coast.

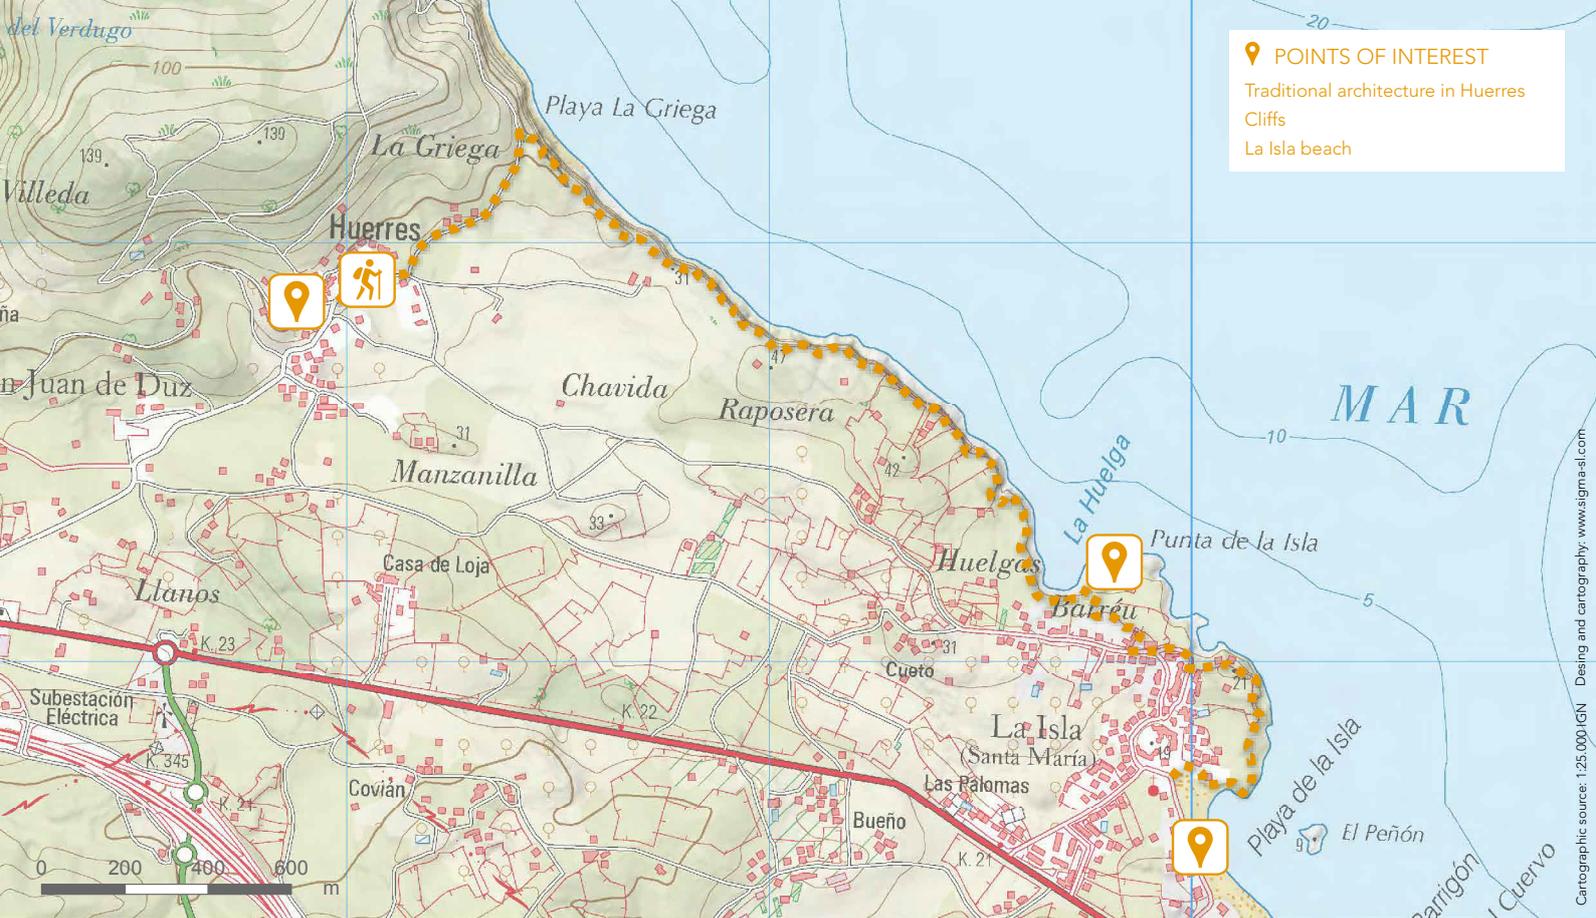

There are only a few metres left to reach the end of the route. We can be aware of this by using the islet in front of La Isla beach as reference. The town of **La Isla** is a perfect place to relax after the tiring route. We can take a reinvigorating dip in the sea, or a calm walk on the sand of one of the most beautiful beaches in Asturias.
